# BENEFIT FROM AN ECO ULTRA SOFTENER..

Removing calcium from your whole house abolishing lime scale build-up.

Without calcium and limescale in your water you can achieve:

- Softer laundry and towels.
- Washing Machines and Dishwashers last longer.
- No need to buy salt for your dishwasher.
- Shower heads and taps last longer
- You will use LESS 'Every day products' - soap, shampoo, conditioner, toothpaste, moisturiser - saving YOU money.
- You will use LESS 'Household products' - detergents, washing powder, bleach, cleaning products - saving YOU money.
- You will help protect our planet against plastic pollution by buying less 'Every day and household products'.

This premium metered water softener incorporates a new stylish cabinet that looks great in any kitchen or utility. This softener can be installed sideways so that the salt bin is to the left or right of the valve.

This softener has a low carbon footprint meeting the high standard being set for low energy, water and salt consumption.

Our ECO Ultra softener range is available with either a 10L or 15L Resin Bed.

Included as Standard with all options:  
 Semi Professional Hardness Drop Test Kit  
 2m of Heavy Duty Drain hose with screw connector for easy fixing to softener drain point  
 1.5m of Flexible Overflow Hose  
 User and Installation manual
